Islamabad, Pakistan

Undergraduate in Computer Science from Air University, Islamabad (2nd semester, CGPA: 3.13), with basic programming skills in C++, Python, SQL, Oracle, HTML, CSS, and JavaScript. Excited to use and enhance my knowledge through an interactive internship in software or web development. Adaptive learner with enthusiasm for solving actual technology problems.

PROJECTS

- **Car Sales and Purchase Website:**

[link](#)

Developed a basic web application to manage car sales and purchases as part of a first-semester project. Utilized core concepts of **HTML**, **CSS**, and **JavaScript** to build interactive user interfaces and manage basic front-end functionality. The project demonstrated foundational web development skills, including form handling, layout design, and simple client-side logic.

- **Car Showroom Management System**

Designed a basic console-based application in C++ to manage car details at a showroom. The project involved implementing core programming concepts such as functions, loops, conditional statements, and data structures to handle tasks like adding, viewing, and updating car records. This project helped strengthen foundational logic-building and object-oriented programming skills.

EDUCATION

- **BACHELOR OF SCIENCE IN COMPUTER SCIENCE**

AIR UNIVERSITY ISLAMABAD (2024-2028)

SKILLS

- C++, PYTHON Programming
- HTML & CSS (web development)
- PowerPoint Presentation Design
- Public Speaking & Presentation Skills
- Team Collaboration & Leadership
- Problem Solving & Critical Thinking
